

Homework-2

Develop a **WOW** hand gesture recognition system using the following:

- **MediaPipe Hand Landmarker** (for detecting hand landmarks)

Link: https://ai.google.dev/edge/mediapipe/solutions/vision/hand_landmarker

- **Hough Transform** (for detecting circles and lines formed by the landmarks)

Submit the following:

- A pdf comprising your description, code and snapshots (or image-results).
- A short demo video to demonstrate the working system
